## Cable Clips

CHIKO Solar Cable Clips provide a simple, fast, and cost effective method of fixing solar PV cables to the frame of PV panels. Chiko Solar Cable Clips are made from SUS304 Stainless Steel, designed for Australian conditions, has a 25+ year service life, and issuitable for all solar modules.

## USER GUIDE

- Slide the clip onto the module frame. The clip can either face inwards or outwards. (90 or 180 degrees to the panel frame)
- When mounted inwards, as shown below, the cables from the junction box can be held neatly and firmly prior to lifting the modules onto the roof.
- The return cable can also be held by the outward facing clips.
